SCHULMAN REPORTS:

When I was a youngster in Amsterdam, the Netherlands, I remember how I was anxiously awaiting my first auction sale. The large "auction room" on the back of the stately house on the Keizersgracht was impressive and I could imagine how some 30 people could fill it easily. And indeed between 20 and 30 people attended from all over the world. The late Wayte Raymond had taken the latest fast steamer, I think, it was the S.S. Normandie. He was there with his wife Olga, and old Leonard Forrer from Spink, the father of "Young" Forrer who recently passed away at the age of 75, and I still remember Maurice Laforex, running the Bourgey office while Emile was still a youngster. Maurice got me dizzy with my first Pernod in Paris the following year. And Fred Baldwin, who also passed away only a few years ago, was there and Mr. Rosenberg from Adolph Hess and then there were the many bidsheets, many old names from America, Howard Gibbs, the Guttag brothers, Burdette Johnson, T. James Clarke etc. I was very impressed while my father was the auctioneer and the State was represented by an agent to collect the auction tax. Today the auction room is still there. Cousin Jacques has modernized the office. Not 30 people show up at auctions but over 100 and the stately room is replaced by the Carlton Hotel. Also in New York at certain auctions hundreds of collectors show up and the Schulman tradition has been to hold them at the Waldorf. This was started in 1949 and we never have abandoned the 4th floor in the Waldorf, except once. The attending public has changed. While only dealers came when I was a youngster representing the collectors, now the collectors attend and they know that at the Schulman auctions the Goddess of Fairness, Integrity and Honesty rules the gavel.

ANCIENT PERSIA 2000–1000 B. C.

Magnificent Cow Deity

4 Hollow gold figure of a cow, cast with thick walls and ciselé applique collar made of goldstrip molded with tiny bosses—about 30 to the inch. Detailed engravings on horns. 2¾x2½ inches. Weight 79 grams. Few casting folds are visible. For this work of great charm, which replaced money at the time, no precise parallel can be found. Typical Persian—and the bull is typical Pre–Achaemenid in front, although some of it looks like Luristan where cows were common. Although some say this cow is late Sassanian or even early Islamic I agree to the Oberlin description, in their catalogue and to Melvin Gutman's attribution to Achaemend rule. **PHOTO** ($1,500.–2,000.)

NORTH AMERICA

U. S. A.

Platinum Rarity

16 Long Island. N. Y. Gardiners Island Pattern trial proof 1965 in heavy pure platinum. Gardiners Island was given to the Gardiners by the English Kings and it has been their Island ever since. Neil Cooper got the privilege to strike some coin–like medals in different metals and only two in platinum. 50.34 grams. Brill proof. Only 2 struck by the Franklin Mint by Gilroy Roberts. Osprey bird. Gilroy Robert's 1st engraved bird from which he was inspired to engrave his famous bird series. This was lot 335 of the June 1973 auction as offered by the purchaser who paid only $1550. Gem proof. **PHOTO** ($1,550.–2,000.)

21 $2.50 1927. Extremely Fine. ($80.–95.)

22 1854 Gold Dollar. Type II. Nice, very Fine. ($400.–450.)

23 1855 Gold Dollar. Type II. Extremely Fine, with small scratch on cheek. ($425.–475.)

DOUBLE MINT MARK GOLD DOLLAR

24 1856S Type 2. Variety with double S mint mark and blunded die. Here is a coin of great interest for the variety collector. The die sinker set his punch too high and too far to the right at an angle. Then he noticed his mistake and reset the punch in the proper position to correct the error. We do not know why this happened but we would venture a guess as to the sobriety of the mint employee. He didn't bother to remove the evidence of the first S and it is visable to the naked eye. Walter Breen authenticated this specimen in 1964 before it was sold as lot. 2395 at the 1964 A. N. A. sale, and a letter from mr. Breen accompanies the coin. Although it was graded Ext. Fine, we would think this was conservative understatement. It is probably closer to Almost Uncirculated, having been washed by some previous owner many years ago. We feel this greatly under rated rarity should realize close to $4,000 on today's numismatic market. **PHOTO** (——)

25 1859D. Gold Dollar. Poorly struck as is usual with all Dahlonega Mint coins of this period but we would have to call this Uncirculated with light rubbing in field. Walter Breen, the Dean of American Numismatic Scholars says of this coin. "Very Rare". need we say more. **PHOTO** ($1,000.–1,500.)

MAGNIFICENT COMMEMORATIVE SET

26 Complete 11 piece commemorative gold set, with all coins in Brilliant Uncirculated condition, with the exception of the 1903 Louisiana Purchase Jefferson Dollar, which is about uncirculated. The set includes the following coins:

1903 Louisiana Purchase Gold Dollar Jefferson head
1903 Louisiana Purchase Gold Dollar McKinley head
1904 Lewis & Clark Gold Dollar
1905 Iewis & Clark Gold Dollar
1915 Panama-Pacific $2.50 gold
1915 Panama-Pacific $1.00 gold
1926 Philadelphia Sesqui $2.50 gold
1916 McKinley gold dollar
1917 McKinley gold dollar
1922 Grant gold dollar, without star
1922 Grant gold dollar, with star

Complete commemorative gold sets are fast disappearing from the Numismatic Market as they are purchased for Museum and other permanent collections. A set this choice should bring close to $5,000 in today's market. (——)

27 California Gold. Interesting lot for the collector. 1872 Octagonal ¼ Dollar; 1872 Octagonal ½ Dollar, and 1881 ¼ Token. All three are prooflike Ex. Fine. ($85.–125.)

1440 DAI SAL KOMA is the name of this beautifully executed extremely scarce E–SEN which is one of the most prized of all. EF. (——)

Its history is well documented and quite interesting. This piece was made only in the KEIO period, 1865-1867. 1453 Chinese. Unable to identify (both large pieces, the round one undoubtedly chemically patinated). 2 pcs. Cast fine. (——)

The Emperor Reigen ordered that the metal of the huge image be used to make a special issue of the Kanei Tsuho. So, in Kanbun 8, 1668, the mint at the village of Kameido, The government "ZENIZA" cast the "Bun" Sen from the metal of the giant Daibutsu of Hideyori. The "bun" character on the reverse is the same as that of Kanbun, the period in which minting began; (the other character "kan", of the period name Kanbun, appears on the obverse of the coin).

These "bun sen were beginning to become scarce by early Meiji. One major reason is based on the desire of all Japanese to have one such coin for their personal "good luck" amulet.—Another is to have such a piece "of the body of Buddah", especially of the metal containing Gold and Silver, in ones home or personal possession, since this provides "The Blessings of Buddah" to the owner.

Another interesting reason exists for the scarcity of this coin. To the smokers of old Japan—and these were, of course, the old-style pipe smokers, the metal from this coin was doubly desirable. Hundreds of thousands of the "bun" sen were melted down and the stems and mouthpieces of favorite pipes were made from this metal. So, the smokers obtained, simultaneously, the protection of Buddah and the protection of the "gold and silver" against mouth and lung cancer and other respiratory diseases due to smoking.
